

# Aesculap Neurosurgery Kerrison Bone Punches

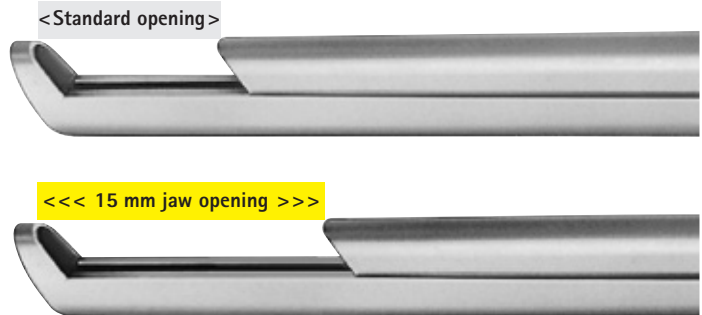

Laminectomy punches

Bone punches with up to 66% larger jaw opening

- Kerrison punches with extra large jaw opening
- 130° / 40° jaw position upwards
- Available in three versions:
  - non-detachable
  - detachable and
  - detachable, coated
- Width 2 mm – 6 mm
- Detachable punches equipped with ejector
- Length 180 mm/7" or 200 mm/8"
- With regular footplate

The laminectomy punches offer up to 66% larger jaw opening compared with standard punches. They are more manoeuvrable in confined operating conditions, e.g. in laminectomies, and allow efficient working with the selective removal of bone tissue.

| 130° / 40°, jaw position upwards | Length      | Width | Jaw opening | non-detachable | detachable* | detachable, coated** |
|----------------------------------|-------------|-------|-------------|----------------|-------------|----------------------|
|                                  | 180 mm / 7" | 2 mm  | 15 mm       | FF677R         | FK971R      | FK971B               |
|                                  |             | 3 mm  | 15 mm       | FF678R         | FK972R      | FK972B               |
|                                  |             | 4 mm  | 15 mm       | FF679R         | FK973R      | FK973B               |
