

# Aesculap Neurosurgery Kerrison Noir<sup>®</sup>

Detachable Bone Punches

**No irritating reflections**

# Kerrison *Noir*<sup>®</sup> No irritating reflections

## *Black*

---

The Noir<sup>®</sup> surface coating is not only a visual feast, it also prevents effectively any irritating light reflections.

## *Hard*

---

The Noir<sup>®</sup> coating increases the surface hardness, to improve the cutting characteristics and extent the service life.

## *Smooth*

---

The smooth Noir<sup>®</sup> surface ensures optimum gliding properties and enhances the sticking resistance.

## *Detachable*

---

The Kerrison Noir<sup>®</sup> bone punch can be taken apart easily, without any tools – for efficient reprocessing.

### Easy disassembly

Unhook the spring from the outer handle.

Close the handle completely and pull down the inner handle.

Pull off the slider towards the rear end.

Insert the spring in the outer handle.

Push upwards the inner handle and open the handle.

Attach the slider and push it towards the front end.

### Easy assembly

The Kerrison Noir® punches with a thin foot plate are to be used exclusively for removing tissues and soft, small bone fragments.

They are identified by their golden inner handle.

Kerrison Noir® bone punches with standard footplates have a black inner handle.

The easily detachable Kerrison Noir® bone punches from Aesculap are identified by their golden spring.

Large number for identification of jaw width at a glance.

Ejector - for the easy removal of punched-out material.

Numerical code - for reliable identification when assembling the two punch components.
