[NON-MEDICAL]

FOLDING PROTECTIVE MASK

SOFT AND COMFORTABLE, FREE BREATH

EN149:2001+A1:2009 FFP2 NR CE 2163

PM2.5

INSTRUCTIONS

Step 1

1. Unfold the mask without touching the face. Pull the ear strips of both sides to make sure the mask is in the upper side of the face.

Step 2

2. Place the mask on the face and adjust the chin.

Step 3

3. After pulling the strips behind the ears, adjust the ear strips as comfortably as possible.

Step 4

4. Place the fingers on the middle of the metal nose clip, while pressing inward, move the fingertips along the nose clip to both sides until the nose clip is completely pressed into the shape of the nose bridge.

Step 5

5. Inhale and exhale to check for leaks.

UTION

The mask can be used for respiratory protection of some particles, such as all kinds of productive dust, droplets, dust, sand dust, pollen and automobile exhaust, and air pollutants like non-volatile organic compounds, as well as the protection of fine particles of environmental air pollution.

Refer to the information provided by the manufacturer.

TIPS

Press and hold the nose clip and adjust the ear strip for a good fit, ensure the fitness of the mask and face before use. Good fitness helps to achieve the expected protective effect.

1. Cover the mask with both hands, and pay attention to avoid affecting the position of the mask on the face.
2. Inhale quickly. If the air leaks from the nose bridge, adjust the nose clip according to the above steps; if the air leaks from the edge of the mask, readjust the ear strip; in case of any failure to achieve the good fitness, repeat Step 1-4; if the fitness still cannot be achieved, choose other models or types of masks.

WARNING!

This mask is not a medical device. It is not intended for the protection of certain infectious diseases or even death. For more information, please refer to the instructions on the packaging. The manufacturer's company address: Zhejiang Province, China. Tel: 0577-59889395.
